No. I - JANUARY

Editorial 2
Union Activities 6
Conferences or meetings external to the ITU 9
Ideas and Achievements
• Canadian communications domestic satellite 12
• Oceanic communications by ultra-short waves 15
• First solid-state colour television camera 16
Newspaper transmission by phototelegraphy
• G.N. BOGORODSKY and M.N. STOYANOV . . . 17
An algorithm for assignment of optimum frequencies to homogeneous VHF radio networks
• J.J. PAWELEC 21
The Journal one hundred years ago 28
Make room in space — Harmony and dissonance in international telecommunications (Part 1)
• G.D. WALLENSTEIN 29
ITU Cinema Library 47
Basic indices for ionospheric propagation 48
News 49
New Products 54
Review of Reviews 55
Books 58
Radio Amateurs
• Amateur satellite " Oscar-6 " 59
• News 59
Official Announcements 59
ITU Publications 61

No. II - FEBRUARY

Editorial 64
Union Activities 68
Conferences or meeting external to the ITU 77
Ideas and Achievements
• " Explorer-48 ": Small Astronomy Satellite 78
• Telecommunications and the environment 80
• Digital standards converter for television 82
Geostationary satellite telephone circuit transmission quality
• J.M. BARSTOW and S.J. CAMPANELLA 83
Venezuela Telecommunications Training Centre
• J. SUEZ GUTIÉRREZ 89
Make room in space — Harmony and dissonance in international telecommunications (continued)
• G.D. WALLENSTEIN 95
ITU Cinema Library 103
Basic indices for ionospheric propagation 104
The Journal one hundred years ago 105
News 106
New Products 112
Review of Reviews 112
Books 116
Tenders (Algeria, Greece, Kuwait) 117
Official Announcements 117
ITU Publications 119

No. III - MARCH

Editorial
• International jurisdiction in telecommunication affairs (A. Introduction) 122
Union Activities 129
Conferences or meetings external to the ITU 130
Ideas and Achievements
• INTELSAT: the new Agreements 131
• " Aeros ": satellite to explore upper atmosphere 133
• Car telephone service in the Federal Republic of Germany 136
From cable television to high-capacity communication networks
• G. MÉTAYER 137
Telecommunications development in the Bahamas
• J.C. LUETCHFORD 142
Developing countries and the work of the International Consultative Committees
• J. DE MESQUITA 151
The Journal one hundred years ago 153
Basic indices for ionospheric propagation 154
ITU Cinema Library 155
News 156
New Products 161
Radio Amateurs
• News 163
Review of Reviews 164
Books 167
Tenders (Australia, Greece) 169
Official Announcements 170
ITU Publications 171

No. IV - APRIL

Editorial
• International jurisdiction in telecommunication affairs (B. The Convention) 174
Union Activities 183
Ideas and Achievements
• " Esro-IV " 186
• Japan: full schooling provided by cable television . . . 189
• Fifty years of monitoring in Germany 190

Page

New requirements for telecommunication engineering education
• H.H. ADELAAR 193
The Journal one hundred years ago 197
The promise of Canadian satellite communications
• N. AHMED and T. SIMMS 198
The role of international standardization in telecommunication network development
• W.T. JONES 207
ITU Cinema Library 211
Basic indices for ionospheric propagation 212
News 213
New Products 221
Radio Amateurs
• The solar events of 4-5 August 1972 222

Tenders (Algeria, Greece) 226
Official Announcements 227
ITU Publications 229
Table of artificial satellites launched in 1972 *(supplement)*

No. V - MAY

Editorial
• The ITU tower *(continued)* 232
List of gifts for the extension of ITU headquarters 234
Comments by the architect 236
Architecture in the service of telecommunications; past . . . present . . . future *(insert)*
Union Activities 241
Conferences or meetings external to the ITU 242
Ideas and Achievements
• The transistor is 25 years old 245
• " OAO-2 " shut down after four years 249
The Journal one hundred years ago 250
Integrated information systems; dream or reality?
• E. CHADLER, D. DUMMER and P. NADOR . . . 251
Planning the telecommunications network of the future
• C. TERRAULT 259
ITU Film Library 267
Basic indices for ionospheric propagation 268
News 269
New Products 275
Radio Amateurs
• Radio amateur scientific competition 277
Review of Reviews 278
Books 279
Official Announcements 281
ITU Publications 283

No. VI - JUNE

Editorial
• International jurisdiction in telecommunication affairs (C. The Regulations—I) . . . . . .
Union Activities . . . . . .
Conferences or meetings external to the ITU . . . . . .
Ideas and Achievements
• Diagnosis by televised radioscopy; long-distance fluoroscopic photography . . . . . .
• Nondestructive test of semiconductor materials for solid-state devices . . . . . .
• Electronic switching system for the telephone network of the Federal Republic of Germany . . . . . .
Planning for a long-haul digital transmission system
• D. CARRUTHERS . . . . . .
The Vth Plenary Assembly of the CCITT
• R.J. CROZE . . . . . .
The Journal one hundred years ago . . . . . .
Terminology work carried out by various international organizations in the field of radio
• A.N. GROMOV . . . . . .
ITU Film Library . . . . . .
Basic indices for ionospheric propagation . . . . . .
Radio Amateurs
• Ham radio was vital communications link with Nicaraguan capital . . . . . .
News . . . . . .
New Products . . . . . .
Review of Reviews . . . . . .
Books . . . . . .
Official Announcements . . . . . .
ITU Publications . . . . . .

No. VII - JULY

Editorial
• International jurisdiction in telecommunication affairs (C. The Regulations — II) . . . . . .
Union Activities . . . . . .
Conferences or meetings external to the ITU . . . . . .
Ideas and Achievements
• " Zond " stations and photography from space . . . .
• Skywave radar observes distant sea conditions . . . . .
The Journal one hundred years ago . . . . . .
Mapping of foF2 by means of topside sounder satellites
• J.D. BURGE, J.W. KING and A.J. SLATER . . . . .
The determination of foF2 and hmF2 from satellite-borne probe data
• J.W. KING . . . . . .
Telephone network design in developing countries
• C.H. McGUIRE . . . . . .

No. IX - SEPTEMBER

Editorial
- International jurisdiction in telecommunication affairs (D. The Recommendations — I) 562

Union Activities 567
Conferences or meetings external to the ITU 570
Ideas and Achievements
- The CICG and telecommunications 571
- Computerized distribution of weather messages in the United States 573

Interaction crosstalk coefficients between telecommunication lines
- M. DELGADO 577

Great circles: an easy way to go round them
- T.J. SEED 590

The Journal one hundred years ago 595
Computer programme to calculate ground-wave field strength
- M. JOACHIM, Y.Y. MAO and W. BOYLE 596

No. X - OCTOBER

Editorial
- Brazil forges ahead 622

Union Activities 624
Conferences or meetings external to the ITU 629
Ideas and Achievements
- Radio astronomy " Explorer " probes cosmic radio noise 630
- World's largest message switching system 633

Telecommunications in Brazil
- Foreword H.C. CORSETTI 636
- The land 637
- Brief history of telecommunications in Brazil 639
- The telephone service 641
- The Ministry of Communications 643
- Telecomunicações Brasileiras SA (TELEBRÁS) 643
- Emprêsa Brasileira de Telecomunicações (EMBRATEL) 647
- Planning elements for the expansion of the Brazilian telephone system 649

No. XII - DECEMBER

Editorial
• International jurisdiction in telecommunication affairs (D. The Recommendations — II) 745
Union Activities 751
Conferences or meetings external to the ITU 757
Ideas and Achievements
• Thin-film laser switch 758
• A new type of telephone exchange: the "centrex" . . . 760
Cable television in the United States: the Boulder, Colorado experience
• G.A. CODDING, Jr. 762
Errors in predicted values of foF2 and hmF2 compared with the observed day-to-day variability
• J.W. KING and A.J. SLATER 768
Individual and thin-route communications by satellite
